

schedule rooms and resources with ease.

The challenge

Resident activities, staff training sessions, guest suites reservations, and private dinner events are essential to a successful community. The challenge – making sure rooms aren't double-booked, that setups are done on time and equipment is in place. Staff and residents fighting for space leads to frustration and declining satisfaction. Paper, Excel, Outlook and generic room booking solutions all add layers of frustration.

The solution

TheWorxHub offers a senior living specific tool for reserving rooms and equipment as well as scheduling setup and tear down tasks. All while providing easy-to-use calendars to view availability. Required setup tasks are pushed to the departments responsible – integrating tasks into their existing work load and displaying on department specific dashboards. The result – no more arguments or disappointed residents. No last minute scrambles to find a room or equipment or chase maintenance to setup the room – it's all taken care of with the room bookings app.

- **Eliminate double-bookings and errors:** Make life easier for event organizers and activity coordinators. With TheWorxHub, you can be sure the right rooms and equipment are available at the right time.
- **Improve guest room service:** With TheWorxHub, residents know the guest rooms they've requested for visiting family and friends will be ready and prepared properly and on time.
- **Showcase your community:** Hosting events for outside groups is both a potential source of additional revenue and a great way to show off what your community has to offer. Boost your reputation and get people telling their friends how attractive and well-run your community is.

About Dude Solutions

Dude Solutions is a leading provider of cloud-based operations management solutions. Over the last 15 years more than 7,000 organizations have selected Dude Solutions' award-winning software to increase efficiencies, improve service and save money.

Loop-in other departments with setup and teardown tasks

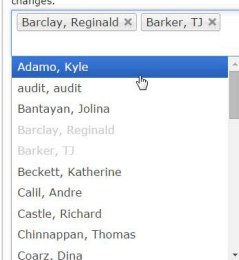

Does the maintenance department need to get tables and chairs out of storage and set them up before the event? Should IT come in to setup the projector and sound system? And should housekeeping come in last to vacuum and dust before the event? Scheduling this is only a matter of clicks when using the unique Setup/Teardown tab in the room booking form.

Email notifications keep you updated

E-mail Updates

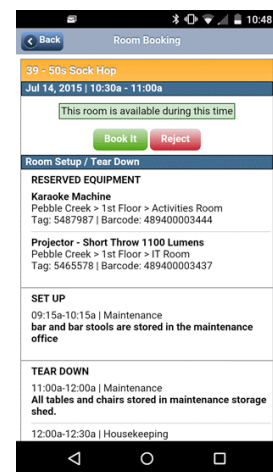

Add staff or residents to get e-mail updates on status changes, time changes, or room changes.

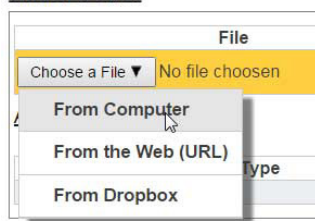

Easily subscribe any WorxHub user to get email notifications on a room booking. They'll get a notice if a request is rejected, or if it's approved. Also, a notification goes out any time an event is cancelled or the date, time, or location are changed.

Get the room booking schedule on your mobile device

Approve incoming room requests, view your event schedule for the day and mark events as complete on your iOS or Android device.

Attach a File?

Attach files to any room booking

A lot of events require specific room setup details and often a diagram is the only way to send the message. Simply attach your diagram, catering order forms, pictures of the room setup from a previous event — there is no limit!

Let's talk ...

Dude Solutions — and TheWorxHub suite of products — is a leader in the world of senior living operations software, offering a solution that enables easy management of your facility in an accessible, web-based environment.
